

ARON PATRICK

Aron Patrick is Director of Research and Development for PPL Corporation, a leading U.S. energy company focused on providing electricity and natural gas safely, reliably, affordably and sustainably to 3.5 million customers in Kentucky, Pennsylvania, Rhode Island and Virginia. PPL's high-performing, award-winning utilities, Kentucky Utilities, Louisville Gas and Electric, PPL Electric Utilities and Rhode Island Energy, are addressing energy challenges head-on by building smarter, more resilient and more dynamic power grids and advancing sustainable energy solutions. Aron is responsible for managing an enterprise-wide R&D strategy and PPL's partnerships with external research organizations, including national laboratories, and universities. Before joining LG&E and KU, Aron held leadership roles at the Kentucky Energy and Environment Cabinet, including assistant director and program manager in carbon management and renewable energy. Aron was an intelligence analyst for the federal government, using statistical analysis and modeling to address national security problems.
