# Kentucky's Airports

## Commercial Service Airports:

Follow 14 CFR Part 139 – Certification of Airports.

Airports hold Part 139 Airport Operating Certificates (AOCs).

## Part 139 Airport Classification Based on Air Carrier Operations

Type of Air Carrier Operation	Class I	Class II	Class III	Class IV
Scheduled Large Air Carrier Aircraft (30+ seats)	x			
Scheduled Small Air Carrier Aircraft (10-30 seats)	x	x	x	
Unscheduled Large Air Carrier Aircraft (30+ seats)	x	x		x

## General Aviation Airports:

Follow 14 CFR Part 91 – General Operating and Flight Rules.

## National Plan of Integrated Airport Systems (NPIAS):

Airports that belong to NPIAS are existing or proposed airports that are significant to national air transportation.

They are eligible to receive federal grants under the Airport Improvement Program (AIP). The NPIAS contains all commercial service airports, all reliever airports and selected public-owned general aviation airports.

 Frankfort, KY 40622

In compliance with the Surface Transportation Assistance Act of 1982 (STAA) and DOT Appropriations Act of 1983 and KRS 189.222, Kentucky has established a network of highways on which motor vehicles with increased dimensions (STAA vehicles) may operate.

Motor vehicles with these increased dimensions shall be allowed on state-maintained highways five (5) driving miles from the designated system and fifteen (15) miles from an interstate or parkway exit for the purpose of attaining reasonable access to terminals, facilities for food, fuel, repairs, or rest. The allowed access is reduced to one (1) driving mile from the designated system on public use highways which are not state-maintained.

# WATERWAYS

# Kentucky's Marine Corridors

The US DOT Maritime Administration's Marine Highway Program consists of over 29,000 nautical miles of commercially navigable waterways including: rivers, bays, channels, the Great Lakes, the Saint Lawrence Seaway System, coastal, and open-ocean routes.

The Secretary of Transportation designated these particular waterways as marine highways because of their ability to provide additional capacity to relieve congested landside routes serving freight and passenger movement. They supplement or connect with landside transportation routes (road or rail line). Each marine highway has a corridor designation that reflects the congested landside route it parallels.

## Marine Corridors In Kentucky:

- M-55 on the Mississippi River
- M-65 on the Tennessee-Tombigbee Waterway
- M-70 on the Ohio River

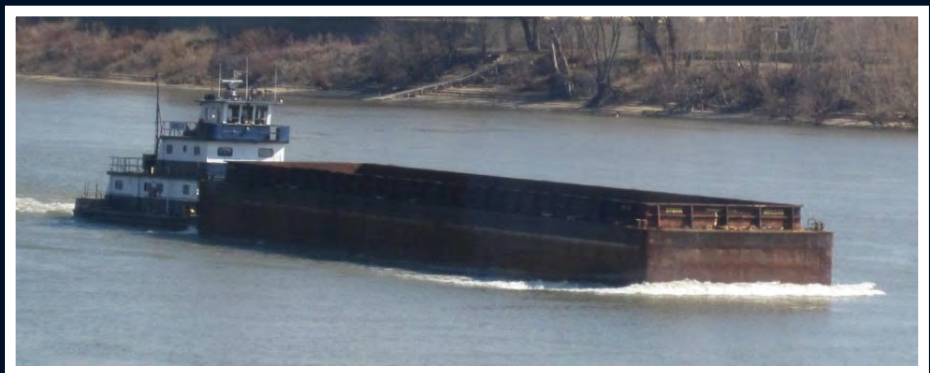

---

# Kentucky's Commercially Navigable Waterways

Kentucky has 1,662 miles of navigable waterways, and 1,020 of those miles are commercially navigable.

## Navigable Waterways in Kentucky:

- Big Sandy River
- Cumberland River
- Green River
- Kentucky River
- Licking River
- Mississippi River
- Ohio River
- Tennessee River

# Kentucky's Waterways – US Coast Guard

The US Coast Guard is the coastal defense and maritime law enforcement branch of the United States Armed Forces. Protecting America's borders is the key to ensuring the free flow of commerce and the safety of our citizens.

Kentucky is located in the Eighth District (New Orleans & St. Louis). The Eighth District is headquartered in New Orleans, and covers all or part of 26 states. The Eighth District protects 900 miles of coastline and 10,300 miles of inland navigable waterways located in their area of responsibility (Mississippi, Ohio, Missouri, Illinois, Tennessee, and Arkansas Rivers).

## USCG Eight District:

- 2 of the nation's busiest ports, New Orleans and Houston.
- 2 million+ barrels of oil and 1 million tons of cargo are imported daily into the district.
- 15 of the top 25 busiest ports by tonnage are located in the district.
- 65+% of the nation's Liquefied Natural Gas activity and 11% of Crude Oil Refining capacity are located in the Port Arthur/Lake Charles region alone.
- 6,500+ oil and gas producing wells, and 130 mobile offshore drilling units in the Gulf of Mexico.
- 5 of the top 7 fishing posts in the country are located in the district. They account for nearly 40% of the catch of US commercial fishermen.
