Executive Summary

This SIP amendment includes one administrative regulation, which became effective on June 2, 2020.

This regulation was filed with the Legislative Research Commission on November 14, 2019. It was published in the December 1, 2019 Administrative Register of Kentucky. Public comments were accepted on this regulation through January 31, 2020. No comments were received during the comment period.

The current SIP approved regulation 401 KAR 52:100, Public, affected state, and U.S. EPA review became effective on January 15, 2001. The SIP revision was submitted on March 15, 2001 and was approved into the SIP on September 6, 2006. (71 FR 52460)

This action requests EPA to approve the effective regulation to the Kentucky SIP as it became effective on June 2, 2020.
To ensure completeness of this SIP revision submittal, the following elements detailed in 40 CFR Part 51, Appendix V are listed:

A. ADMINISTRATIVE MATERIALS:
1. A formal letter of submittal from the Governor or his designee, requesting EPA approval of the plan or revision.
   
The cover letter dated August 11, 2020, signed by Secretary Rebecca W. Goodman, the Governor’s designee, requests EPA’s approval of the SIP revision to amend 401 KAR 52:100 Public, affected state, and U.S. EPA review.

2. Evidence that the State has adopted the plan in the State code or body of regulations; or issued the permit, order, consent agreement in final form. That evidence shall include the date of adoption or final issuance as well as the effective date of the plan, if different from the adoption/issuance date.
   
The Commonwealth of Kentucky is submitting this document to request 401 KAR 52:100 be amended to the SIP. This regulation became effective on June 2, 2020. The effective date of the plan should be the date of the SIP revision submittal, August 11, 2020.

3. Evidence that the State has the necessary legal authority under State law to adopt and implement the plan.
   
The powers and duties of the Cabinet established in KRS 224.10-100 provide the Energy and Environment Cabinet with the statutory authority to prepare and develop a comprehensive plan or plans related to the environment of the Commonwealth. Additionally, KRS 224.10-100 requires the Cabinet to administer and enforce all rules, regulations and orders promulgated under Chapter 224, Environmental Protection, including those regulations that provide for the prevention, abatement, and control of air pollution.

4. A copy of the actual regulation, or document submitted for approval and incorporation by reference into the plan, including indication of the changes made to the existing approved plan, where applicable. The submittal shall be a copy of the official State regulation/document signed, stamped, dated by the appropriate State official indicating that it is fully enforceable by the State. The effective date of the regulation/document shall, whenever possible, be indicated in the document itself.
   
A copy of 401 KAR 52:100 along with the approved changes is provided in Appendix A.

5. Evidence that the State followed all of the procedural requirements of the State’s laws and constitution in conducting and completing the adoption/issuance of the plan.
   
The procedural requirements associated with this plan and public comment period are included in Appendix B.
6. **Evidence that public notice was given of the proposed change consistent with procedures approved by EPA, including the date of publication of such notice.**

In accordance with 40 CFR 51.102, the Cabinet provided notice for the opportunity to submit written comments and to allow the public the opportunity to request a public hearing. A record of the filing of the proposed regulation was contained in the *Administrative Register of Kentucky* published on December 1, 2019 and is included in Appendix C. A copy of the public hearing notice published on the Division’s website is included in the submittal package in Appendix B. A public hearing was scheduled for January 30, 2020. However, no request for public hearing was received, so the hearing was cancelled.

7. **Certification that public hearing(s) were held in accordance with the information provided in the public notice and the State’s laws and constitutions, if applicable.**

A public hearing notice was posted on the Division’s website and sent to members of the community. This notice detailed that the public had until January 31, 2020 to provide comment and that a public hearing would be held on January 30, 2020, listing the time and location. The SIP revision document was made available for public review on the Division’s website throughout the 30 day review period. Information related to public hearing notice requirements is provided in Appendix B.

8. **Compilation of public comments and the State’s response thereto.**

EPA’s comments on the SIP submittal and Kentucky’s subsequent responses can be found in this submittal in Appendix D.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years?

The proposed amendment to the administrative regulation will not generate revenue in subsequent years. However, public notice on the internet instead of a newspaper is expected to save the agency approximately $30,000 each year.

(c) How much will it cost to administer this program for the first year?

The Cabinet’s current operating budget will be used to administer this program for the first year.
(d) How much will it cost to administer this program for subsequent years?

The Cabinet’s operating budget will be used to administer this program for subsequent years.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impacts of the administrative regulation.

(b) Waives its right of review.
(2) The Cabinet shall provide a statement that sets forth the legal and factual basis for the draft permit conditions, including references to applicable statutory or regulatory provisions, and shall send the statement to the U.S. EPA and to any other person who requests it.

(5) On a case-by-case basis and with prior U.S. EPA approval, the Cabinet may submit the draft permit or permit revision in lieu of a proposed permit or permit revision. For these submittals:
(a) The Cabinet shall provide the U.S. EPA with:
1. The permit application, draft permit or permit revision, and supporting information no later than the first day of the public comment period; and
2. All timely submitted public comments after the close of the public comment period;
(b) The draft permit shall become the final permit or permit revision at the end of the U.S. EPA’s forty-five (45) day review, unless:
1. A substantial change is made in the permit or permit revision following the public comment period; or
2. The U.S. EPA files an objection to the permit or permit revision.
(c) If a substantial change is made in the draft permit or permit revision, the Cabinet shall make appropriate revisions and submit a proposed permit or permit revision to the U.S. EPA for another forty-five (45) day review period.

(a) File a statement of objection, in writing, within forty-five (45) days after receiving the permit or permit revision and supporting information;
(b) Include in the statement the reasons for the objection and a description of the permit changes needed to resolve the objection; and

(8) If the Cabinet does not submit a revised proposed permit or permit revision within ninety (90) days after an objection is filed, the U.S. EPA may issue or deny the permit.
(9) If the U.S. EPA does not object to the issuance of a permit, a citizen may petition the U.S. EPA to file an objection.
(a) The U.S. EPA shall file the citizen objection if the petition is:
1. Made within sixty (60) days following the end of the U.S. EPA’s forty-five (45) day review period; and
2. Based only on objections raised with reasonable specificity during the public comment period, unless:
   a. The petitioner can demonstrate that it was impractical to raise the objection within the public comment period, or
   b. The grounds for objection arose after the end of the public comment period.
(b) If the U.S. EPA objects to a permit action as a result of a petition filed, the Cabinet shall not issue the permit until the U.S. EPA objection has been resolved, except that a petition for review does not stay the effectiveness of a permit or its requirements if the permit was issued after the end of the forty-five (45) day review period and prior to the U.S. EPA objection.
(c) If the Cabinet issues a permit or permit revision prior to receipt of a U.S. EPA objection:
1. The U.S. EPA may modify, terminate, or revoke the permit consistent with the procedures in 40 C.F.R. 70.7(g)(4) and (5); and
2. The Cabinet shall, upon receipt of the U.S. EPA objection, issue a revised permit that satisfies the U.S. EPA objection; and
3. The source shall not be in violation for failing to submit a complete and timely application.
(10) To the extent possible, all information provided to the U.S. EPA shall be submitted in an electronic format that is compatible with the U.S. EPA's national database management system.

(11) The Cabinet shall keep records of all information submitted to the U.S. EPA for a period of five (5) years.

(12) (a) If the Cabinet is authorized by the source to submit confidential information to the U.S. EPA, a claim of confidentiality shall accompany the relevant information.
(b) If the Cabinet is not authorized by the source to submit confidential information to the U.S. EPA, the source shall submit the confidential information directly to the U.S. EPA with a claim of confidentiality.

         1. A substantial change is made in the permit or permit revision following the public comment period; or
         2. The U.S. EPA files an objection to the permit or permit revision.

      (b) If the U.S. EPA objects to a permit action as a result of a petition filed, the cabinet shall not issue the permit until the U.S. EPA objection is resolved, except that a petition for review does not stay the effectiveness of a permit or its requirements if the permit was issued after the end of the forty-five (45) day review period and prior to the U.S. EPA objection.
      (c) If the cabinet issues a permit or permit revision prior to receipt of a U.S. EPA objection:
         1. The U.S. EPA will[may] modify, terminate, or revoke the permit consistent with the procedures in 40 C.F.R. 70.7(g)(4) and (5);

   (11) The cabinet shall keep records of all information submitted to the U.S. EPA for a period of at least five (5) years.
   (12)(a) If the cabinet is authorized by the source to submit confidential information to the U.S. EPA, a claim of confidentiality shall accompany the relevant information.
      (b) If the cabinet is not authorized by the source to submit confidential information to the U.S. EPA, the source shall submit the confidential information directly to the U.S. EPA with a claim of confidentiality.

APPENDIX D

Response to Comments
Response to Comments for Revision to 401 KAR 52:100

Key Comments

1. **Comment:** Kentucky’s changes to 401 KAR 52:100 indicate that the Kentucky Division for Air Quality (KDAQ) has selected web site noticing as its “consistent noticing method.” Please note that if website noticing is selected as the consistent noticing method, the public notice is required to be posted for the duration of the public comment period. See 40 CFR 51.165(i)(1), 51.166(q)(2)(iii), and 70.7(h)(1). KDAQ’s regulatory revisions at 401 KAR 52:100 Section 4(1) require that public notice be given via electronic notice on the Cabinet website. The changes, however, do not require the public notice be posted for the duration of the public comment period. KDAQ should revise their rules to require that the public notice be posted on the Cabinet website for the duration of the public comment period.

   
   *(R. Scott Davis, U.S. EPA)*

   
   **Response:** For clarification, the posting to the Cabinet website includes the start and end dates of the public comment period (30 days).

2. **Comment:** The prevention of significant deterioration regulations at 40 CFR 51.166(q)(2)(viii) require that the reviewing authority notify the applicant in writing of the final determination and that they make such notification available for public inspection at the same location or on the same website where preconstruction information was made available. The EPA is aware that KDAQ makes the final determination (i.e. the proposed permit) available on their website via the searchable permit gateway; however, KDAQ’s regulations at 401 KAR 52:100 do not appear to include provisions pursuant to 40 CFR 51.166(q)(2)(viii). KDAQ should revised their rules to include the provisions pursuant to 51.166(a)(2)(viii) or provide clarification as to how this requirement is met elsewhere in their regulations.

   *(R. Scott Davis, U.S. EPA)*

   **Response:** The requirements found in 40 CFR 51.166(a)(2)(viii) are found in 401 KAR 52:020 and the “Cabinet Provisions and Procedures for Issuing Title V Permits”.

General Comments

3. **Comment:** The proposed regulatory text at 401 KAR 52:100 Section 8(3) states that “The draft permit shall also be posted, for the duration of the public comment period, on the internet…” The EPA recommends revising the regulatory text in Section 8(3) to state “The draft permit shall also be posted, for the duration of the public comment period, on the Cabinet website” for consistency throughout the regulation. See Sections 2(2)(a) and (b), 3(3)(a), 4(1), and 7(2)(a).
Response: KDAQ agrees. This change was made as part of the Suggested Substitutes found in Appendix A.
