RE: Submittal of the Kentucky State Implementation Plan revision, requesting the redesignation of Bullitt, Jefferson, and Oldham counties to attainment for the 2015 8-hour ozone National Ambient Air Quality Standards (NAAQS).

Dear Mr. Blackman:

The Kentucky Energy and Environment Cabinet (Cabinet) submits this letter as a revision to the Kentucky State Implementation Plan (SIP) for redesignation of the Louisville, KY-IN 2015 8-hour ozone nonattainment area. Specifically, the Cabinet has provided a submittal that addresses the five requirements of redesignation as outlined in Clean Air Act (CAA) section 107(d)(3)(E).

On August 3, 2018, EPA designated the Kentucky counties of Bullitt, Jefferson, and Oldham, and the Indiana counties of Clark and Floyd as marginal nonattainment for the 2015 8-hour ozone NAAQS. The SIP revision requests that the Louisville, KY-IN 2015 8-hour ozone nonattainment area be redesignated to attainment, due to improved air quality and attainment and maintenance of the ozone NAAQS. The maintenance plan demonstrates that volatile organic compounds (VOC) and nitrogen oxides (NOx) emissions are projected to decrease in the future, resulting in the continued attainment of the standard.

In accordance with 40 CFR 51.102, the SIP revision was available for public review and comment from June 21, 2022 until July 27, 2022. If you have any questions or comments concerning this matter, please contact Mr. Michael Kennedy, Director of the Division for Air Quality at (502) 782-6997, or Michael.Kennedy@ky.gov.

Sincerely,

Rebecca W. Goodman,
Secretary
