Cabot Corporation of 2 Seaport Lane, Suite 1300, Boston, MA 02210 has applied to the Kentucky Division for Air Quality for revision of their permit to operate an Industrial Inorganic Chemicals facility at 5414 US Highway 42 East, Carrollton, KY 41008. The plant is classified as a Conditional Major source due to potential emissions of hazardous air pollutants greater than a major source threshold. With this revision, based on performance testing, the facility will no longer have individual HAP emission limitations at emission points 01 and 02. The existing federally-enforceable source-wide limitations will continue to restrict this source's potential emissions to less than a major source threshold for 401 KAR 52:001.

Official copies of the Division's draft permit and relevant supporting information are available for inspection by the public at https://eec.ky.gov/Environmental-Protection/Air/Pages/Public-Notices.aspx and during normal business hours at the following locations:

Division for Air Quality, 300 Sower Boulevard, 2nd Floor, Frankfort, KY 40601, (502) 564-3999 and Division for Air Quality Florence Regional Office, 8020 Veterans Memorial Drive, Suite 110, Florence, KY 41042, (859) 525-4923.

For a period of 30 days the Division will accept comments on the draft permit and afford the opportunity for a public hearing. The first day of the 30 day period is the day this notice is posted on the website above. Comments and/or public hearing requests should be sent to Michelle McCloskey at the above Frankfort address or e-mail Michellea.McCloskey@ky.gov. Any person who requests a public hearing must state the issues to be raised at the hearing. If the Division finds that a hearing will contribute to the decision-making process by clarifying significant issues affecting the draft permit, a hearing will be announced. All relevant comments will be considered in issuing the final permit. Further information can be obtained by calling Michelle McCloskey at (502) 782-6713.
