

AIR QUALITY PERMIT NOTICE

Agency Interest # 1449, Permit # V-14-013 R5
Subject to Prevention of Significant Deterioration (PSD) and
Concerning the Construction and Operation of a Steel Recycling Mini-mill in Gallatin County, Kentucky

The Nucor Steel Gallatin, LLC (21-077-00018) of 4831 US Highway 42 West, Ghent, Kentucky has applied to the Kentucky Division for Air Quality for a significant revision to its existing Title V permit to construct and operate a new steel melt shop #2, a cold rolling mill complex, a pickling and galvanizing line, and associated support operations to be located at 4831 US Highway 42 West, Ghent, Kentucky. The plant is classified as a Title V major source due to its emissions of regulated air pollutants and hazardous air pollutants. The melt shop #2, cold rolling mill complex, and associated modifications and emission increases at existing units has the potential to emit 399 tons of PM, 559 tons of PM10, 397 tons of PM2.5, 685 tons of NOx, 2,885 tons of CO, 451 tons of SO2, 0.7 ton of Lead, 225 tons of VOC, 5 tons of Fluorides, and 935,624 tons of CO2e annually which are the ten pollutants for which the potential to emit is above the PSD modification significance thresholds. Air quality regulations for prevention of significant deterioration of air quality will apply to the emissions of PM, PM10, PM2.5, NOx, CO, SO2, Lead, VOC, Fluorides, and CO2e from this facility. For the project, ambient air dispersion modeling was performed to determine the degree of increment consumption expected to occur, pursuant to 401 KAR 51:017. The following table lists the Class II PSD increment and increment consumed:

Pollutant	Averaging Period	Class II PSD Increment ($\mu\text{g}/\text{m}^3$)	Increment Consumed ($\mu\text{g}/\text{m}^3$)	Exceeds Increment?
PM10	24-hour	17	12.33	No
PM10	Annual	30	1.0	No
PM2.5	24-hour	9	8.74	No
PM2.5	Annual	4	1.91	No
NOx	Annual	25	6.93	No
SO2	3-hour	512	117.48	No
SO2	24-hour	91	20.16	No

Based on the AERMOD modeling results for NO2, PM10, PM2.5 and CALPUFF (Version 5.8.5) modeling results for SO2, ambient impacts of NO2, PM10, PM2.5, and SO2 are below the Class I Significant Impact Levels (SILs) at all Class I areas within 50 km of the Gallatin facility; therefore, compliance with the applicable Class I PSD Increment standards is presumed. The one Class I area within 300 km of the Gallatin facility evaluated in the Class I Significance Analysis is Mammoth Cave National Park.

An electronic copy of the Division's draft permit should shortly become available at <http://air.ky.gov/Pages/PublicNoticesandHearings.aspx>. Official copies of the Division's draft permit and supporting information are available for inspection by the public during normal business hours at the following locations:

Division for Air Quality, 300 Sower Boulevard, 2nd Floor, Frankfort, KY 40601 Phone (502) 564-6977; Division for Air Quality Florence Regional Office, 8020 Veterans Memorial Drive, Suite 110, Florence, KY 41042 Phone (859) 525-4923; and the Gallatin County Public Library, 209 West Market Street, Warsaw, KY 41095-0848, Phone (859) 567-2786

For a period of 30 days the Division is soliciting comments on the draft permit. A public hearing has been scheduled on April 4th, 2019 at the City of Warsaw Building, 303 East Main Street, Warsaw, Kentucky, 41095 at 6:30 P.M. Eastern Standard Time. If no one contacts the Division to request a public hearing before the close of business on April 1st, 2019, it will be canceled. The first day of the 30 day period is the day after the publication of this notice. Comments and/or public hearing requests should be sent to Mr. Shawn Hokanson at the above Frankfort address or email shawn.hokanson@ky.gov. Any person who requests a public hearing must state the issues to be raised at the hearing. All relevant comments will be considered in issuing the proposed permit. U.S. EPA has up to 45 days following issuance of the proposed permit to submit comments. The status regarding EPA's 45-day review of this project and the deadline for submitting a citizen petition will be posted at the following website address: <http://www2.epa.gov/caa-permitting/kentucky-proposed-title-v-permits> shortly after the end of this 30-day comment period. Further information can be obtained by calling Ms. Amy K. Tempus Doom at (502) 782-6786
