

## **Alternative Procedures Request Form**

**Instructions.** Complete this form and submit it with your project notification whenever it is not feasible to use any of the regulation-required work practices of 401 KAR 58:040, Section 4 for removing *friable* or *potentially friable* asbestos materials (but *not* for *nonfriables* that will *remain* nonfriable).

- 1. Identify all Section 4 procedures that are not feasible for this project.**
- 2. Explain why they are not feasible.**
- 3. Identify your proposed alternative procedures.**
- 4. Explain how your proposed alternatives will provide equivalent asbestos control.**
