Applicants must provide within 30 days any change in address, phone number or other information submitted in this registration. If the applicant wishes to be removed from this registration listing for the purpose of performing decontamination services, they must submit a request to the cabinet to terminate their certification pursuant to 401 KAR 101:010, Section 6.

REQUIRED INFORMATION

The applicant must provide post financial assurance in the amount of \$100,000 or \$250,000 as applicable. Provide an original surety bond (DEP6079B) or irrecoverable letter of credit (DEP6079C) or escrow agreement (DEP6079E) or financial self test (DEP6079F) or corporate guarantee (DEP6079G) along with a performance agreement (DEP6079D) with no additions, deletions or alterations of the language. If mistakes are made please strike through and initial.

The applicant must provide a certificate of liability insurance issued by an insurance company licensed to do business in Kentucky certifying that the applicant has a public liability insurance policy in an amount of \$250,000.00 for personal or property damage that might occur to third parties arising from the performance of decontamination services for inhabitable properties by the contractor as his or her employee or agents. In the event the insurance policy lapses the applicant must provide a suitable replacement policy prior to the expiration of the existing policy. The cabinet requests that it be named as the certificate holder.

The applicant must certify that decontamination will be performed safely and in accordance with [803 KAR2:403](#). Provide a Statement of Qualifications (SOQ) - Current training certificates that are applicable to this type of decontamination activity. At a minimum you or your company should have individuals that are and have:

(a) Occupational Safety and Health Administration ([OSHA](#)) [40-hour HAZWOPER Training](#): - This course meets the training requirements of the HAZWOPER regulation, KyOSH considers employers whose employees perform decontamination / clean-up work of former illegal methamphetamine laboratories to fall under the scope of the HAZWOPER standard. This determination is supported by the provisions of 1926.65(a)(1) and (a)(1)(iii).

The applicant must certify that decontamination of inhabitable properties will be conducted in accordance with [KRS 224.01-410](#). The decontamination standard for methamphetamine inside inhabitable property is less than or equal to one-tenth of one (0.1) microgram of methamphetamine per one hundred (100) square centimeters of surface material, unless the cabinet promulgates an administrative regulation providing for a different standard. The cabinet may provide for other standards by administrative regulations as follows: (a) Standards for precursors to methamphetamine that are consistent with the standard for methamphetamine or standards for related hazardous material or hazardous waste; and (b) The number and locations of surface material samples to be collected based on the circumstances of the contamination and acceptable testing methods. In the absence of an administrative regulation as described, at least three (3) samples must be collected from the surface material most likely to be contaminated at each property.

[Kentucky Cleanup Guidance for Methamphetamine Contaminated Properties, January 2009](#) must be used in accordance with the performance of methamphetamine lab decontamination. The applicant must submit one (1) copy of a *Contractor's Certificate of Decontamination (CCD)*(DEP5035) (Reference: Inhabitable Property Owner's Name & Address) to the Division of Waste Management, one (1) copy to the local health department, and at least one (1) copy to the property owner within sixty (60) days following remediation. The CCD must contain a description of the decontamination activities conducted and include the following information at a minimum: latitude/longitude coordinates of the property, street address, map showing the affected structure(s), sample locations, disposal receipts for any contaminated building materials removed from the property, copies of analytical results from the samples, photographic evidence of the property condition before and after the decontamination service and a certification statement that the cleanup conducted meets the decontamination standard in accordance with [KRS 224.01-410](#).

Upon registration, the Energy and Environment Cabinet shall either accept or deny the contractor's certification. The cabinet may revoke the certification of any contractor for cause and may collect the forfeited financial assurance of any contractor found to be in violation of [KRS 224.01-410](#). You must also report any changes in your registration information with KDWM such as address, financial assurance and/or liability insurance changes within 30 days. Forfeited financial assurance may be used by the cabinet to decontaminate inhabitable properties. The Cabinet reserves the right to use a third party contractor to verify decontamination services of any property as it deems necessary. Failure to comply fully with the requirements of this certification and [KRS 224.01-410](#) and [803 KAR2:403](#) may result in the immediate revocation of your certification by KDWM.
