ARKEMA INC.
CALVERT CITY, MARSHALL COUNTY, KENTUCKY
TENTATIVE DECISION TO RENEW THE HAZARDOUS WASTE OPERATING PERMIT
EPA I.D. KYD-006-370-159
AI-2918

The Kentucky Energy and Environment Cabinet (Cabinet), Division of Waste Management (Division), has tentatively decided to renew the Hazardous Waste Operating Permit for Arkema Inc. (Arkema). Arkema is located at 4444 Industrial Parkway, Calvert City, Kentucky. The site contact person is Jeremy Rowe, who may be reached at (270) 395-6692.

Why does Arkema need a permit from the Division?

Arkema generates, stores and dispose of hazardous waste that typically consists of halogenated (chlorine, fluorine) organics. Arkema stores the hazardous waste generated on-site in five (5) above ground storage tanks. The hazardous waste stored in these tanks is then disposed of in the facility's incinerator. Arkema does not accept any hazardous waste generated off-site. Kentucky environmental regulations require Arkema to have a hazardous waste operating permit to store and dispose the hazardous wastes managed at the facility.

Arkema completed the 30 year Post-Closure Care period on December 31, 2016 for the four (4) closed regulated units which had been included in pervious permits. A Post-Closure Certification Report was submitted to and approved by the Division on January 22, 2019. Arkema will continue to monitor and maintain the units as part of the Corrective Action program with the remaining Solid Waste Management Units (SWMUs) and Areas of Concern (AOCs).

How can I tell the Division what I think about this tentative decision?
