NOTICE

To: Underground Storage Tank (UST) Owners and Operators and Eligible and Certified Contractors

From: Edward Winner, UST Branch Manager

Date: August 15, 2013

Subject: Task Rate Adjustment for Grain Size Analysis

Section 2.15, Laboratory Analysis, of the Contractor Cost Outline (July 2011), incorporated by reference in 401 Kentucky Administrative Regulation (KAR) 42:250, indicates a formulated task rate for Grain Size Analysis of \$100.00. The Underground Storage Tank (UST) Branch has surveyed regional laboratories and found \$100.00 is insufficient to cover the laboratory costs of this analysis. In order to cover the cost of Grain Size Analysis (sieve and hydrometer), will be reimbursed at a formulated task rate of \$200.00. As consistent with subsection 2.15, Laboratory Analysis, the task rates in this NOTICE include the cost of preparing the samples for shipment, the cost of shipment, and associated sample containers.

A handwritten signature in black ink, appearing to read "Anthony B. Hatton".
