Mission Statement

Support MCWD and Alliance Water Resources

- Shift focus of this subcommittee from operations (water loss) to planning and coordination:

Provide input to MCWD to **support sustainable operations** and to **enhance planning/coordination** activities that **promote asset management**.

Planning & Coordination

- **Modeling**
- **Geographic Information System (GIS)**
- **Funding**
- **Asset Management**

Asset Management

Managing assets to minimize the lifetime cost of owning and operating them, while maintaining the desired level of service

- Proactive vs. reactive operations
- Better prioritization of capital projects
- Efficient emergency response
- Improved financial management
- Improved customer communication and service
- Sustainable operations
 - Water quality
 - Water loss
