Re: KIA Loan No. A2-09-25, Federal Stimulus Project, Pennyrite State Park New  
Wastewater Treatment Plant, Dawson Spring, KY – Initiation of Operations

The Kentucky Department of Parks, as the Loan Recipient of the above referenced project, is pleased to notify of the project's Initiation of Operation. The new sewer plant started operating April 26, 2011 as the Park's existing waste plant's sewer flow was pumped; with the new lift station, to the new 50,000 gallon extended aeration plant. Full operation will commence once sufficient flow has filled the treatment basins. Once fully operational the old plant will be demolished.

Please contact me if additional information is required.

Sincerely,

Lisa Gorby, Project Manager  
Division of Facilities Management
