

**KYG05 – Inactive Mine Lands**  
**Renewed General Permit**  
**Effective 9-1-16; Expires 8-31-21**

This general permit covers stormwater runoff from inactive mine lands on which natural resources were extracted and/or processed and which have not been reclaimed to applicable state and federal standards. It also covers the discharge of wastewaters from abandoned structures associated with such inactive mines.

- ◆ [General Permit](#)
  - ▶ **Notice of Intent:** Due to a number of factors including the: (1) potential sites that are eligible for this permit, (2) wide variability of the surface owners/controller and their resources, and (3) limited resources of the Division of Water, submission of an NOI is not required. Any facility to which this general permit is applicable is automatically covered by this general permit upon the effective date.
