- One entry per person
- Entries must be received by November 1, 2024 to be eligible for the prize drawing.
- The winner of our prize will be selected using a random number generator. This is a tool that ensures fairness by selecting a number at random, which corresponds to a participant. Here's how it works:
  1. Assign Numbers: Each participant will be assigned a unique number.
  2. Generate Randomly: We will use the random number generator to pick a number without any bias.
  3. Match and Announce: The number chosen by the generator will correspond to one of the participants, and that person will be the winner!
- This method helps ensure that everyone has an equal chance of winning and that the selection process is completely impartial.
- Winners will be contacted via the email address provided, in order for the prize recipient to provide shipping information. If no response is received within two (2) weeks, a new prize winner will be drawn.

## Prize Information

- Drawing winners will receive one (1) WaterSense certified low-flow showerhead and a You Otter Care About Water tote bag with water conservation swag!
