

WATER CONSERVATION

Make all 5 of these simple steps in your daily life to reduce your water use by up to 10% today!

5 WAYS TO SAVE WATER IN YOUR HOME

1. Limit bathroom faucet use to only when necessary. Turn off while brushing teeth.
2. Do one less load of dishes in the dish washer each week.
3. Cut shower times to 5 minutes or less.
4. Do one less load of laundry each week.
5. Limit kitchen faucet use to only when necessary.
