LIVESTOCK BMP #14

**Description:**
Protect areas prone to soil erosion by establishing vegetative cover, by surfacing with suitable load-bearing materials, or by installing needed structures in heavily used livestock areas.

**AWQA Minimum Requirements:**
Protect or stabilize heavily used livestock areas by establishing vegetative cover, by surfacing with suitable load-bearing materials, or by installing needed structures. Site livestock feeding and heavy use areas in a manner that recognizes areas prone to water quality or soil erosion problems and avoids such problems.

**Recommendations:**
- Fertilize and lime according to soil test results. Increased animal traffic around feeding and watering facilities makes these areas particularly susceptible to erosion, so they should be located upgradient from streams, drainageways, and other water bodies. Portable shades, hay feeding racks, and similar facilities should be periodically moved about the pasture area to prevent overgrazing and denuding of any area.
- Areas with high stocking densities should use BMPs to collect and store or filter out waste and sediment produced on these sites prior to this runoff reaching a drainageway, stream, open sinkhole, spring, well, or impounded body of water. Dirt lots located on sites with topography sloping towards a drainageway, stream, well, spring, impounded water body, or open sinkhole should maintain a 100-foot vegetative filter strip to separate the animal feeding area from the water systems.

**Funding Assistance Options**
- State Cost Share
  - See your local Conservation District to apply.
- Kentucky Ag. Development Fund (KADB/KAFC)
  - Select from available program options here.
- NRCS Environmental Quality Incentives Program (EQIP)
  - Select from available program options here.

**Important Considerations**
- Water Quality Benefit (KEY: =good, =best: see STEPL Model)
- Wildlife Benefits
  - Contact the Kentucky Department of Fish and Wildlife’s Habitat Improvement Program on how to improve wildlife habitat with select BMPs (1-800-888-1348).
