## CONSERVATION DISTRICT AWARDS

Publicizing awards won is one of the many ways that a conservation district can bring the public's attention to the district. Districts can use the platform presented by an award presentation to draw attention to their programs in their communities.

This is, in no way, a comprehensive list of the awards for which conservation districts can nominate themselves or members of their communities. Your district should always be on the lookout for ways to promote your district. An added benefit to these awards is that some of them come with cash prizes that can be used to further your district's programs.
