

NATIONAL ASSOCIATION OF ABANDONED MINE LAND PROGRAMS

## Resolution

### National Association of Abandoned Mine Land Programs

A Resolution Concerning Reauthorization of Fee Collection Authority Under Title IV of the Surface Mining Control and Reclamation Act PL.95-87

*BE IT KNOWN THAT:*

WHEREAS, Title IV of the Surface Mining Control and Reclamation Act of 1977 (SMCRA) established the Abandoned Mine Land (AML) reclamation program; and

WHEREAS, The National Association of Abandoned Mine Land Programs (NAAML P) consists of 31 states and Indian tribes, each with interests in abandoned mine land remediation, including the reclamation of land and water resources adversely affected by past mining and left in an abandoned or inadequately restored condition; and

WHEREAS, pursuant to the cooperative federalism approach contained in SMCRA, 28 NAAML P member states and tribes administer AML programs approved, funded and overseen by the Office of Surface Mining Reclamation and Enforcement (OSMRE) within the U.S. Department of the Interior; and

WHEREAS, SMCRA Title IV establishes a reclamation fee on each ton of coal mined in the United States to fund abandoned mine land reclamation; and

WHEREAS, Congress enacted amendments to SMCRA in 2006 to address, among other things, continued collection of AML fees and funding for state and tribal programs to address existing and future AML reclamation; and

WHEREAS, The reclamation fee authorized under SMCRA Title IV will expire by operation of law on September 30, 2021; and

WHEREAS, Since the enactment of SMCRA, 6,151,789 AML hazards (totaling some \$4 billion in construction costs) have been abated by the state and tribal AML programs; and

WHEREAS, Presently, there are 14,384,171 AML hazards (totally some \$9 billion) that still need to be remediated; and

WHEREAS, Without the funding generated by the Title IV reclamation fee, these remaining AML hazards will not be addressed, prolonging indefinitely the subjection of our citizens and environment to the hazards associated with AMLs.

NATIONAL ASSOCIATION OF ABANDONED MINE LAND PROGRAMS

**WHEREAS,** To complete reclamation of the remaining AML hazards, reauthorization of SMCRA Title IV fee collection authority is a necessity.

**THEREFORE BE IT RESOLVED,** that the National Association of Abandoned Mine Land Programs:

Strongly endorses reauthorization of Title IV reclamation fee collection authority to continue ongoing mandatory grants to states and tribes; and

Urges Congress to enact legislation reauthorizing Title IV fee collection authority for a period of fifteen years beyond September 2021; and

Strongly supports the continuation of states and tribes as the sole delivery mechanism for AML funds given their demonstrated 35-year history of effective and efficient program implementation; and

Advocates the consideration of other appropriate, related amendments to Title IV of SMCRA based on our ten years of experience since enactment of the 2006 amendments (see related attachment); and

Will cooperate with OSMRE and interested and affected stakeholders to assess these additional potential amendments
