Applicants must advertise the filing of applications for permits, amendments, major revisions, operator change revisions, transfers, renewals, some interim program permit revisions, reclamation deferrals due to coal marketing problems, bond releases, coal exploration over 25 tons, and coal extraction incidental to the extraction of other minerals. These advertisements must be placed in the newspaper of largest bona fide circulation, as defined in KRS 424.110-.120, for each county in which the proposed operation is located.

This RAM provides an updated list showing the appropriate newspaper for each of the coal counties. The list was compiled from circulation information provided by the Kentucky Press Association, 101 Consumer Lane, Frankfort, Kentucky 40601, (502) 223-8821. Questions about circulation information for newspapers should be directed to that organization.

This updated list supersedes the list published in RAM 106 on May 7, 1992. Please note that the only change from the previous list is for Whitley County. If an applicant has already begun a series of advertisements in the previously listed newspaper, he should complete that series of ads in the same newspaper.

(List is on back of this sheet)
