

Kentucky

Department for Surface Mining
Reclamation and Enforcement

Reclamation Advisory Memorandum

From: Elmore C. Grim, Commissioner

E.C.G.

Date: June 10, 1983

Subject: Submission of Transitioned Application,
Priority II, III and IV Applications

RAM# 65

The date for submission of technically complete Priority II "transitioned" permit applications has been moved to October 3, 1983. On or before this date, all Priority II transition comprehensive applications (priority codes beginning with "B" and ending with "X", "N", or "P") must be submitted to the Department in a form ready for technical review, including all compliance demonstrations and other technical data required for inclusion in the application.

The date for submission of technically complete Priority III and IV transitioned permit applications has been re-scheduled for December 19, 1983. As in the case of Priority II applications, all Priority III and IV transition comprehensive applications must be submitted to the Department in a form ready for technical review by the Division of Permits.

The submission dates identified herein supersede those dates previously specified in RAMS #53, #55, and #62.
