

**PILOT KNOB** State Nature Preserve is thought to be the place where Daniel Boone first looked upon the Bluegrass Region in 1769. The view from the summit of this 730-foot-high knob provides an outstanding panorama of three regions of Kentucky: the Bluegrass, the Knobs, and the Cumberland Plateau.

The preserve features a second growth forest generally classified as oak-hickory. Within this classification are a number of forest communities, each associated with different environmental conditions such as elevation, soil type, bedrock, soil moisture, and exposure to sunlight. The trees common to the summit are exposed to more sunlight and wind and less moisture than those found at the base of the knob. These trees, mainly blackjack oak and Virginia pine, are adapted to harsh conditions. They are stunted because of dry, infertile soil. As you hike along the trail, look for the changes in forest composition.

The outcrop of rock near the summit is Pennsylvanian sandstone, and is approximately 280 million years old. A close look reveals pebbles of various sizes incorporated into the rock. This type of sandstone is called 'conglomerate'. This particular conglomerate is made up of a mixture of sands and gravels deposited by an ancient stream that flowed here. During the early 1800's the conglomerate outcrop was quarried from this knob, as well as others in the vicinity, for millstones. A quarry site with several unfinished millstones is located on the preserve and can be seen along the Millstone Quarry Trail. The Millstone Quarry Trail is considered moderately easy.

The round-trip hike to the summit along the Oscar Gerald, Jr. Trail is 2.4 miles and due to the elevation gain, is considered strenuous. The Sage Point Trail is a 2.0-mile loop trail which connects with the Oscar Gerald, Jr. Trail and takes visitors along the spine of the ridge to Sage Point. The trail then descends

to a stream at the bottom of a ravine before ascending to a saddle between Rotten Point and Pilot Knob and reconnecting to the Oscar Gerald, Jr. Trail. It is considered very strenuous.

Visitors are advised to stay on the marked trail system, which provides the easiest way to the top of the knobs. Although infrequently encountered, there are venomous snakes on the preserve. Remaining on the trail and being observant are the best ways to avoid them. Please do not collect any artifacts, plants, or animals, or deface the natural features of the preserve. Hunting, camping, pets, rock climbing, and mountain biking are not permitted. The preserve is open from sunrise to sunset daily.

Pilot Knob is currently a 742-acre preserve. The original parcel was purchased from The Nature Conservancy and dedicated in 1985. In 1999, additional acreage was added to the preserve. A parcel owned by the Powell County Fiscal Court was dedicated in 2005.

## STATE NATURE PRESERVE

From the junction of the Mountain Parkway and KY 15 at Clay City (Exit 16), follow KY 15 north for 2.7 miles. Turn right on Brush Creek Road. Travel 1.5 miles to the end of Brush Creek Road into the gravel parking lot.

**By observing the rules for State Nature Preserves, you will be helping to protect Kentucky's natural heritage.**

1. Preserves are open sunrise to sunset.
2. Trails are open to foot traffic only. The established trail system provides you with the safest and best way to travel through the preserve. Visitors must not re-route or shortcut the existing trail system.
3. Horses, bicycles, climbing and rappelling are not permitted in nature preserves because of their destructive impacts to the trails and natural features.
4. Motorized vehicles are not permitted.
5. Possession of drugs or alcohol is prohibited.
6. Collecting plants, animals, rocks, artifacts or wood reduces those things that are needed to maintain nature's delicate balance. Therefore, collecting, hunting and trapping are prohibited on dedicated state nature preserves.
7. To ensure the natural beauty of each preserve and to promote visitor safety and enjoyment, camping, picnicking, building fires, audio equipment and pets are not permitted.
8. Remember to carry out your trash.

**THESE RULES ARE ESTABLISHED BY 400 KAR 2:090. ANY PERSON IN VIOLATION OF THIS REGULATION MAY BE LIABLE FOR A CIVIL PENALTY OF \$1000 PER DAY AND POSSIBLE CRIMINAL PROSECUTION AS PROVIDED FOR IN KRS 224.**
