Re: Comment extension request for EPA's Proposed Standards of Performance for New, Reconstructed, and Modified Sources and Emissions Guidelines for Existing Sources: Oil and Natural Gas Sector Climate Review; 87 Fed. Reg. 74,702 (December 6, 2022)

Dear Sir/Madam:

On behalf of the Kentucky Energy and Environment Cabinet (Cabinet), the Division for Air Quality respectfully requests the United States Environmental Protection Agency (EPA) extend the comment period on the proposed action for an additional 60 days.<sup>1</sup>

The Cabinet finds that additional time is needed to review all aspects of the proposed rule and provide meaningful comment. Multiple agencies will need to collaborate to fully evaluate the impacts of the proposed rule. The Cabinet appreciates EPA's consideration of this extension request and looks forward to continuing to work with EPA in developing regulations that improve air quality for all Kentuckians. If you have questions regarding this request for extension of the comment period, please contact me at [Michael.Kennedy@ky.gov](mailto:Michael.Kennedy@ky.gov).

Sincerely,

 Recoverable Signature

X *Michael Kennedy*

Signed by: Michael Kennedy
