## Landfarm Operator

Hello from Operator Certification,

As we move to online education we are trying a different way of delivery. The link below will take you to a series of prerecorded Landfarm Operator webinars. You can watch and review these as many times as you like. These are not live events but you are required to take the training before your test. You will not be permitted to take an exam until the training has been complete.

### **Class Presentation:**

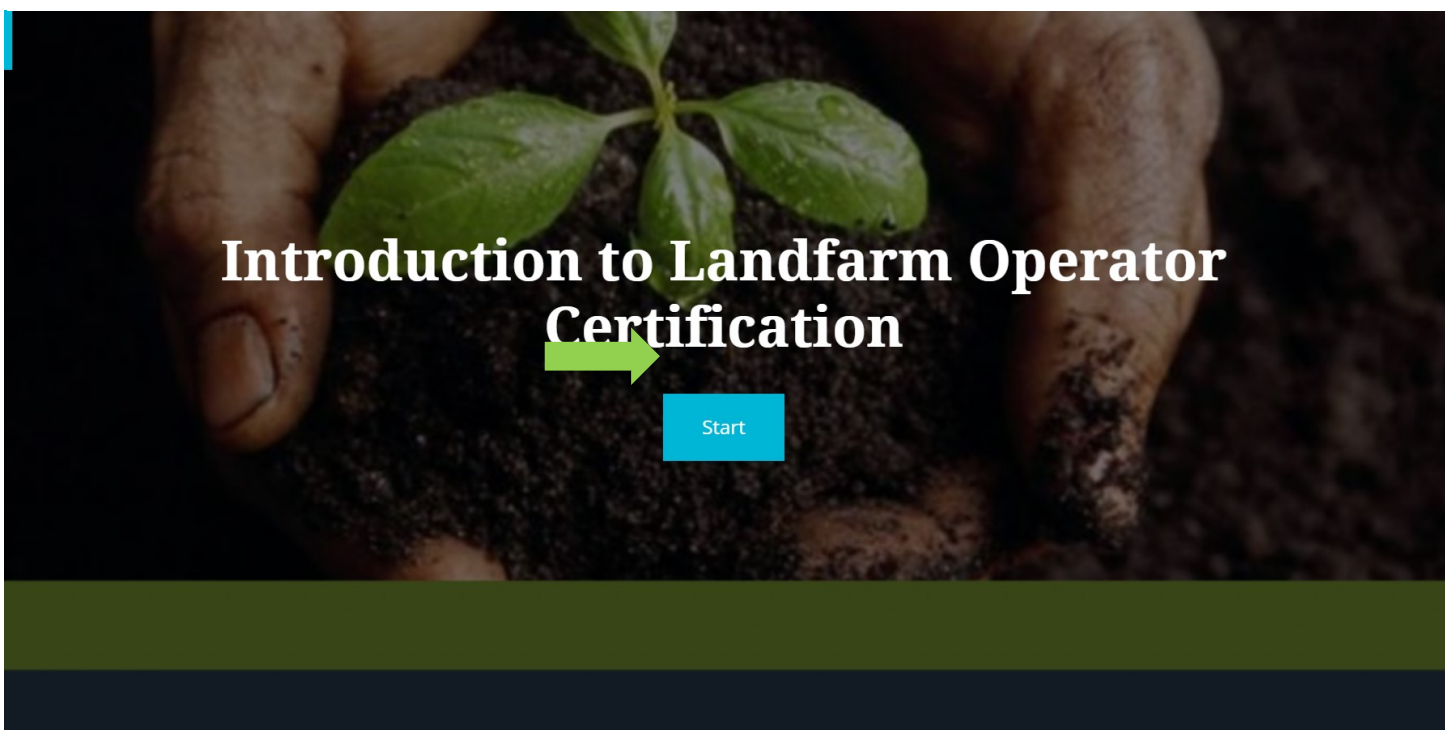

<https://www.easy-lms.com/introduction-to-landfarm-operator-certification/course-62777>

### **The Training Manual can be found at:**

<https://eec.ky.gov/Environmental-Protection/Compliance-Assistance/operator-certification-program/Test%20Preparation%20Documents/KYLandfarmOperatorCertificationManualRevMarch2018.pdf>

### **LMS Instructions:**

After clicking on the link above you will be directed to the presentation. Click on the Start button to begin.

## Landfarm Operator

The following slide introduces the subject matter and what to expect out of this course. If you are following along with the training manual this is listed as the table of contents.

## Introduction to Landfarm Operator Certification

Welcome to the Intro to the Landfarm Operator Course. In this online course you will learn the concepts and processes that are involved in operating a Landfarm. Specifically, the course will cover the following topics:

- Landfarm Operator Certification
- Regulation Overview & Permitting Process
- Landfarm Siting Components
- Operating Your Landfarm
- Other Landfarm Considerations

When finished with the introduction page click on the Next button.

## Landfarm Operator

To continue, an account will need to be created. This helps us to know who has access to our training videos and if needed, we can verify which courses you've completed.

You will have to supply your name and email address (preferably not a facility address) when you watch the videos. You will also need to provide a username, password and the name you have on file with the Operator Certification Program. If you are already an operator and know your agency interest number please add it to the registration as well. This will help to ensure the correct person gets credit (if applicable) for watching these courses.

Each page will list the chapter and title. Scroll down for the Learning Objective and to view the recorded webinar. Click on the Play button which is located in the middle of the video to get started.

### Chapter 1: Landfarm Operator Certification

PREVIOUS

NEXT

#### Learning Objectives:

- Understand the requirements and certification processes for Landfarm operators.
- Understand and be able to apply the Kentucky regulations relating to the certification requirements for solid and special waste operations.
- Understand the importance of professional conduct for certified operators.

Landfarm Ch 1

### Interim Operator

Watch later Share

- If the certified operator is scheduled to be away more than 14 days, permittee must notify the DCA at least 10 days prior to absence.
- This notice will specify the person to be the interim operator, qualifications, and identify the duration of the interim operator.
- To apply for interim operator status DCA must receive the Application for Certification and Registration Forms.

Once you have completed the webinar click on the Next button. This will take you to the next chapter of the recorded webinar. Follow these steps until you've completed all chapters.
